

BOARDWALK BOWL — 1964 —

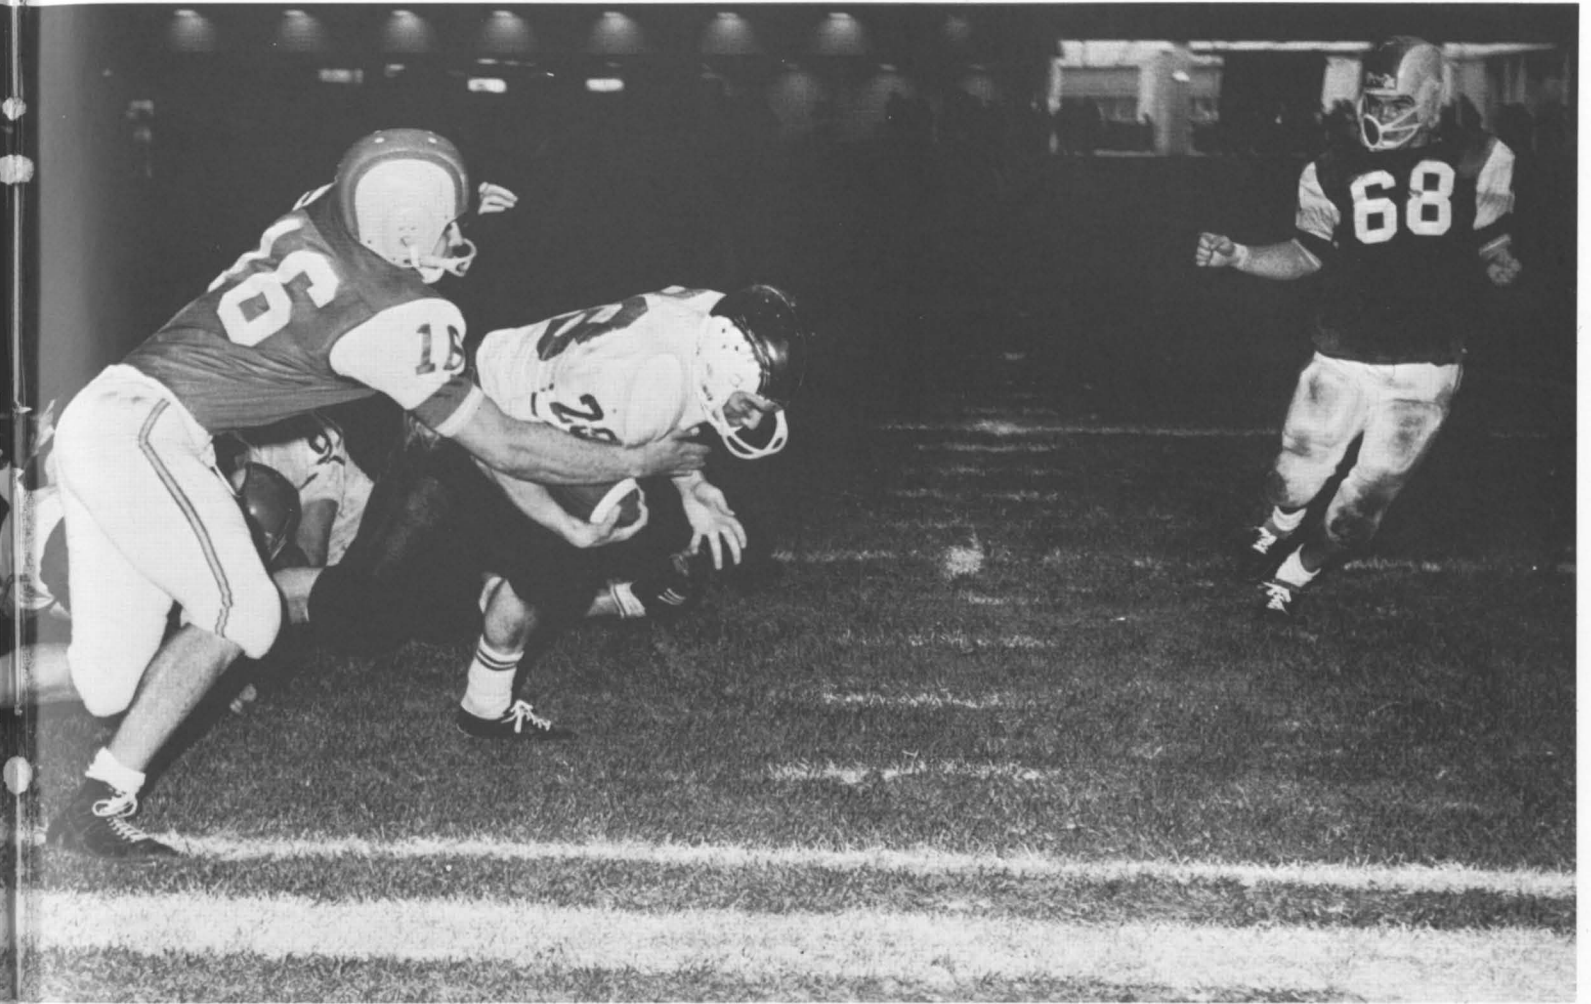

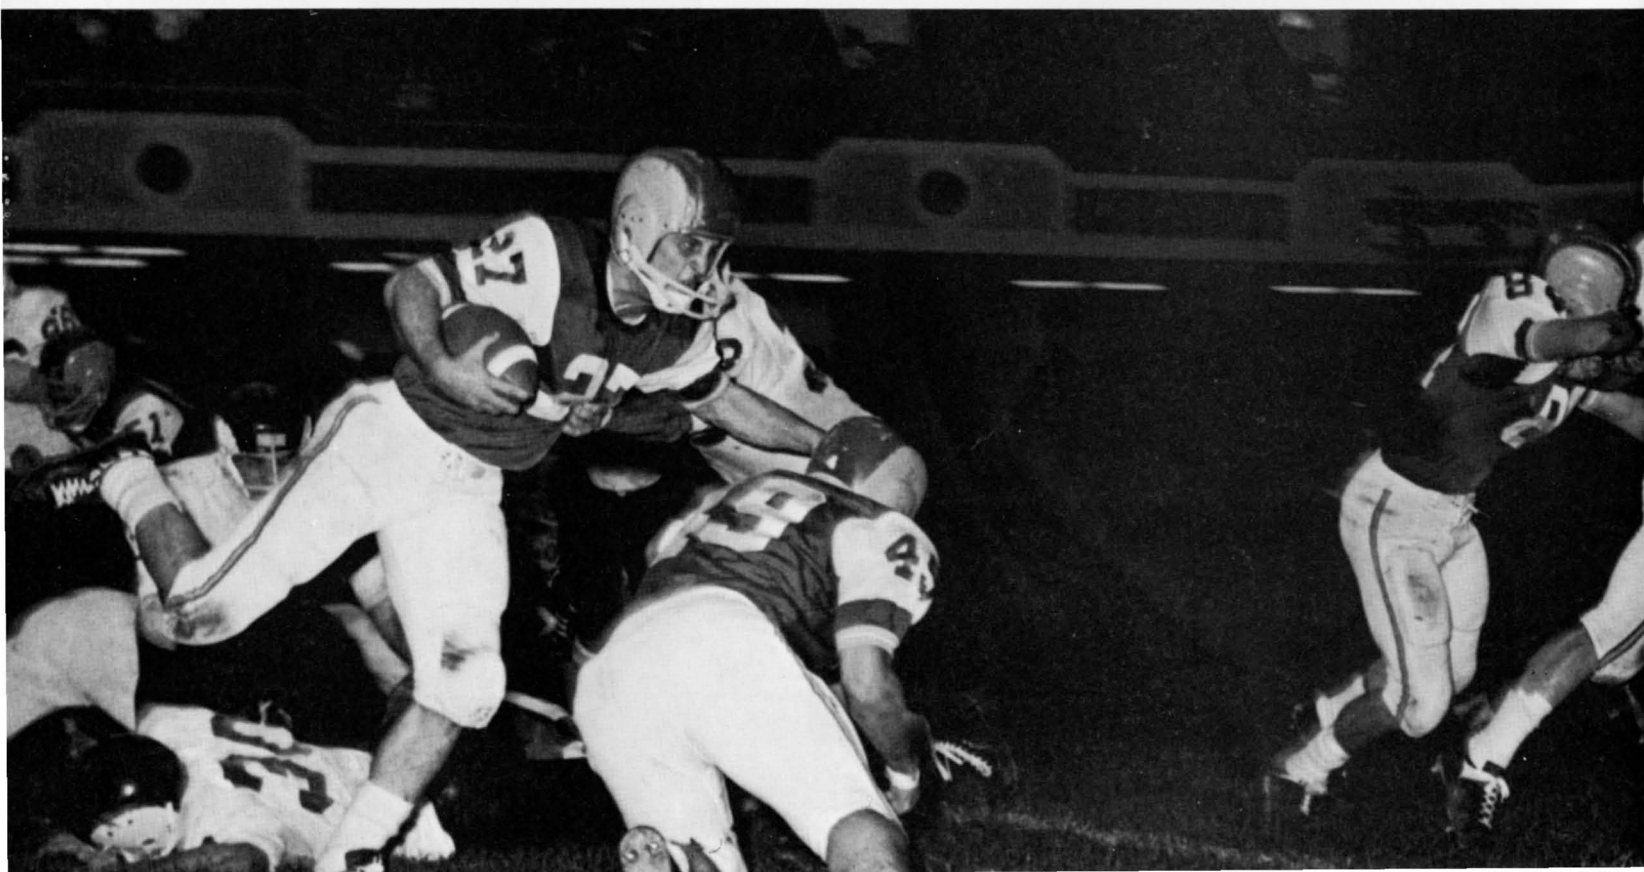

Larry O'Hara is congratulated after a tremendous game.

This year's football game in Atlantic City saw P.M.C.'s football team live up to all their promises — that of playing an entire season of ball in 60 short minutes. Some of the most spectacular football ever seen by the Corps of Cadets left little to be desired by everyone who saw the game. Credit for this goes not only to a great team, but to their Coach, who led them on in a valiant effort.

"Take from the Fire of the Past the Flame, not the Ash"

Alumnus, 1st Lt. George Horn, Class of '62, recaps highlights of his flying career in Viet Nam.

College is not merely a factory for book learning. It is a training ground, within which we discuss the problems, seek the solutions and enjoy the aesthetics of society. It is the "spring board" from which we leap to take our place as an ACTIVE PARTICIPANT.

Is it feasible then to consider the idea of waiting upon graduation for active participation to suddenly evolve?

Dr. Robert Page, Temple University, addressing P.M.C. Fathers and Sons: "Our objective should be to extract from the past that which is good and apply this to the present."

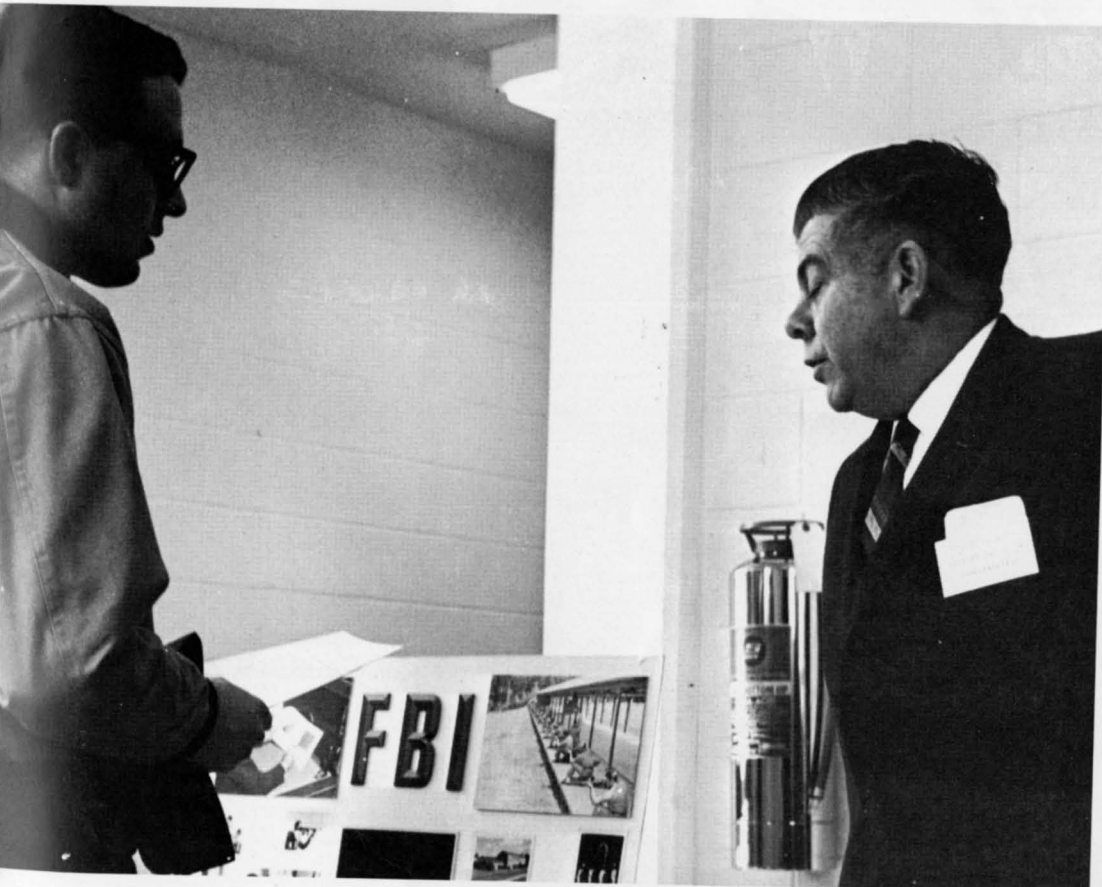

C. Owen Smith addresses the student body concerning "The Exercise of Civilian Authority Upon United States Military Establishments."

POLITICAL SCIENCE SENIORS SIMULATE INTERNATIONAL RELATIONS

Union and Republic "Officials" discuss Neutrality for Nam.

A new experiment in education was introduced on the P.M.C. campus. The Political Science department undertook the first in a series of "simulations" or gameing, in which the students assumed the role of world leaders and engaged in international interactions among their respective nation states.

The simulation exercise proved to be stimulating and insight was gained into the technicalities of international relations.
